Response

Continued Examination Under 37 CFR 1.114

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after allowance or after an Office action under *Ex Parte Quayle*, 25 USPQ 74, 453 O.G. 213 (Comm'r Pat. 1935). Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, prosecution in this application has been reopened pursuant to 37 CFR 1.114. Applicant's submission filed on 06/01/2004 has been entered.

Public use or sale

2. An issue of public use or on sale activity has been raised in this application. In order for the examiner to properly consider patentability of the claimed invention under 35 U.S.C. 102(b), additional information regarding this issue is required as follows: based on the claim made by the Applicant that even though the previously cited reference JP S63-215987 did not disclose the presence of a film extending at least part of the way between the scintillating columns this feature was in fact included in the product that was made based on this disclosure and the product was sold in the U.S as early as 1990, which, if documented, would constitute prior art against the claims as presented in this Application, the Examiner requests any written documentation, such as, presentations, brochure, product description, or any similar written description where this feature of the product is in fact disclosed.

Art Unit: 2878

Applicant is reminded that failure to fully reply to this requirement for information will result in a holding of abandonment.
